## why spyder uk?

- ...because the expected standard of gigs doesn't have to be lower on the Island.
  - ...because we've got one of the largest equipment stocks, right here on the Island
  - ...because all our services are fully insured, with a £2m public liability policy
  - ...because we're rolling out the safety passport scheme for the benefit of our employees, clients and the general public
  - ...because we've worked in venues from the smallest pubs to the largest stadiums
  - ...because we've got direct access to equipment not available to other companies on the Island
  - ...because we invest back into people and equipment right here on the Island
- but perhaps more importantly...
- ...because we love what we do, and that reflects in our work

Isle of Wight  
Chamber of  
Commerce
